ANNEXES

Welcome to the Employability and Student Affairs (ESA) at Kaplan. We are glad that you want to be part of the Student Council at Kaplan. Getting involved is a great way to meet people, make new friends, gain valuable leadership experience, develop organisational skills and have fun!

This handbook is designed for all members of the Student Council. It will help you to understand the membership policies and procedures that you need to follow and provide you with helpful tips on how you can run an effective interest club or international community club if you are a student leader. Please review the material in this handbook. If you have any questions, please contact ESA at esa@kaplan.com or (65) 63095770

STUDENT INVOLVEMENT PHILOSOPHY

Why Get Involved?

Participation in co-curricular activities is valuable for students for many reasons. First of all, it is fun! Secondly, you get to meet many more people outside of your classrooms! Last but not least, there are many different interest clubs and international community clubs that you may participate in with opportunities for you to pick up soft skills, volunteer in projects and community work as well as prepare yourself for work life as you progress in your academic programmes with Kaplan.

In addition, your active participation in student life outside of the curriculum allows you to learn skills that will be valuable to you throughout your lifetime - both in your work-related and career life as well as your personal life. Students involved in committees and/or clubs have opportunities to develop communication skills and improve their problem-solving and decision making skills; students involved in leadership development programmes will develop skills such as know how to lead successful meetings, resolve conflicts amicably and apply ethical leadership. Students involved in volunteer opportunities and/or athletic competition learn about teamwork and dedication to a task, while ideas such as understanding diversity, cultural differences and valuing individuality are valued elements of our campus life.

Being involved on campus enables students to have active lives outside of the classroom. Studying is hard work but you will need time to relax and enjoy the social side of campus life - you can experience it all with Kaplan Campus Life and the Kaplan Student Council (KSC)!

SAFETY, FIRST
AID & ACCIDENT
REPORTING

Safety

All event participants are required to sign an **indemnity form** for all student activities. For students under 18 years old, guardians are required to sign on both the event registration form and the indemnity form.

All event participants are expected to co-operate with its efforts to protect their health, safety and welfare by not undertaking risky behaviour or place others at risk by their actions.

First Aid

First Aid is the immediate support given to an injured party upon suffering harm. It is the provision of the minimal assistance required to keep the casualty comfortable until qualified medical help arrives.

Accidents and injuries can be sustained at any time and during any type of activity however safe it is perceived to be. It is therefore essential that prior to any activity, consideration be given to the availability or access of first aid.

a) First aid support:

First aid support should only be conducted by trained or experienced individuals. ESA staff are certified first aiders who can carry out any medical assistance if needed during SEC organized events.

It is good practice for each student club to identify qualified first aiders in their group, but where risk assessment has identified a likelihood of injury, those trips should be accompanied by ESA. Access to adequate first aid support at all times is also important when taking part in an activity.

b) First aid kits:

Each student activity has access to a first aid kit by signing out from ESA. All first aid kits remain the property of ESA and shall be returned post event.

ESA shall purchase and replenish first aid supplies and ensure that first aid items are not expired.

A first aid kit should be taken to all activities unless the activity is conducted on campus or a place where first aid is readily available.

It is the responsibility of SEC and CRs who are using the first aid kit to inform ESA as soon as reasonably possible, if an item in the first aid kit is used or for other reason needs replacing.

First aid kits and their contents are not for use on existing injuries, strains, or for preventative measures. (ie. blisters sustained prior to an activity).

Accident Reporting

Any accident, however minor, must be reported to ESA.

SEC and CRs are responsible for reporting the accident. An “**Accident Reporting Form**” is to be filled up by the injured person(s), SEC or CRs and be submitted to ESA. The emergency contact of the injured person(s) will then be contacted by ESA, SEC or any CRs present at the event. If the injured person(s) is under 18 years old, the parent or guardian must be informed.

The reporting of near misses is also essential to ensure that serious accidents can be avoided in the future. Reporting a hazardous incident can highlight the need for more stringent precautions to ensure the safety of participants. Accident reporting guidelines are depicted in the below:

Type of Accident	Action	Timeline
Superficial cuts, bruises, burns or other minor injuries	First aiders to attend to injury. To report if a minimum of 5 participants suffer similar injuries.	Report in the next monthly meeting if necessary.
Injuries that require the attention of GPs, but not life-threatening.	To complete “Accident Reporting Form”, submit to ESA and devise preventive measures.	Submit “Accident Reporting Form” by next working day. Preventive measures to be discussed in the next monthly meeting.
Injuries that are life threatening or require immediate hospitalization	To complete “Accident Reporting Form”, inform emergency contact or guardian (if below 18 years old) and ESA immediately.	Submit “Accident Reporting Form” by next working day. Ad hoc meeting to be held within 3 working days to investigate potential causes and devise preventive measures.
